## SHORT NEWS

**As of today, the Ministry of Industry and Trade of Russia accepts applications for the inclusion of modern technologies in the government list for the purpose of concluding special investment contracts under the special investment contract system SPIC 2.0**

As of today the Ministry of Industry and Trade of Russia is accepts applications for the inclusion of modern technologies in the government list for the purpose of concluding special investment contracts under the special investment contract system SPIC 2.0 (Resolution No. 319 of the Government of the Russian Federation dated 21 March 2010). In accordance with effective legislation on industrial policy in the Russian Federation, special investment contracts may only be concluded in respect of technologies (products) which have been included in the government list.

Consequently, if your company is considering the possibility of concluding a special investment contract under SPIC 2.0. in the future, you have to file an application by 5 June 2020 at the latest to the Ministry of Industry and Trade of Russia for the inclusion of your technology in this list. Applications received later than 5 June 2020 will not be considered.

Applications are filed via the electronic platform GISP (State Information System of Industry) of the Ministry of Industry and Trade of Russia (<https://gisp.gov.ru/gisplk/>). For this purpose, the company must register on the GISP platform. Applications submitted in hard copy will not be considered.

The application is to be filed in Russian language according to the attached form. A working translation of the application in English is attached.

If you have any additional questions, we would be very glad to answer them.
